Honda Offers Additional Peace of Mind with Winter Service Offer

With snow and bad weather in many parts of the country, Honda (UK) is geared up for what is turning into another long winter by offering all Honda owners an attractive Winter Service package until the end of February 2012*.

Winter can be hard on the biking community and for cherished and prized machinery. Whether braving the elements or garaging up, Honda (UK) hopes to ensure that all owners' machines are in tip top condition for the coldest winter months.

The offer applies to all on-road Honda motorcycles serviced at authorised and participating Honda dealers. To take advantage of this offer, simply book in for a service between now and the end of February 2012, upgrade to Castrol Power 1 Racing oil (optimised for year-round protection and performance) and receive 12 month's complimentary Roadside Assistance (worth £100).

Honda technicians only use Honda Genuine Parts, to ensure that every Honda stays a Honda. Every dealer also offers a full Health Check as part of every service, to ensure your machine can remain in the best condition possible. And with the additional peace of mind gained with a year's complimentary Roadside Assistance with the AA, Honda owners can rest easy knowing that their machine is looked out for when out on the open road.

For further information about his offer or any products in the Honda range from motorcycles to cars and power equipment, visit www.honda.co.uk, visit you local Honda dealers or call 0845 200 8000.
